

INTERFLUX[®] GLASSPLATE

ADVANTAGES :

- * *Resistant to high temperatures.*
- * *Can stay in contact with liquid solder without breaking.*
- * *Fast cooling will not break the glassplate.*
- * *Slight coloration for recognition by optical sensors.*
- * *Clear scale (in centimeters).*

CHARACTERISTICS :

Size : 300 x 200 x 4 mm

Scale : 1 cm

Max. operation temperature : 750 °C (1500 F)

Max. temperature gradient : 760 °C (1520 F)
